

Frequently Asked Questions

How Does it work?

Caci uses time micro currents to tone, lift and re-educate the muscle whilst also working on improving damage skin tissue for example, acne scarring, sun damage and dry dehydrated skin. The tiny currents work in harmony with the body's own bio electrical field, making it virtually sub-sensory.

It also stimulates blood circulation.

Is it painful?

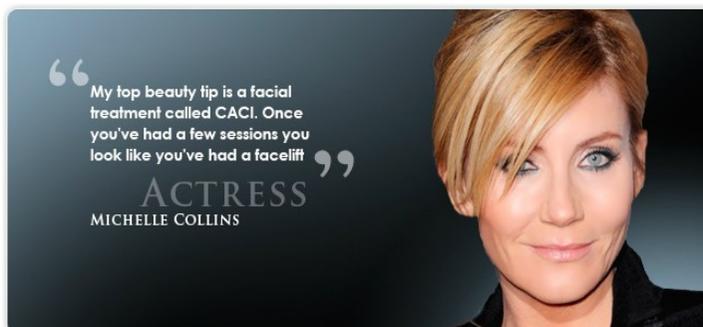

NO—The procedure is not painful. However, to achieve maximum results a slight tingling might be felt. The treatment is completely safe.

How many treatments will I need?

Courses vary depending on the age and muscle tone. It can be anything from 10-15 treatments. These are tailor-made to suit individual client needs.

What follow-up treatment will I need?

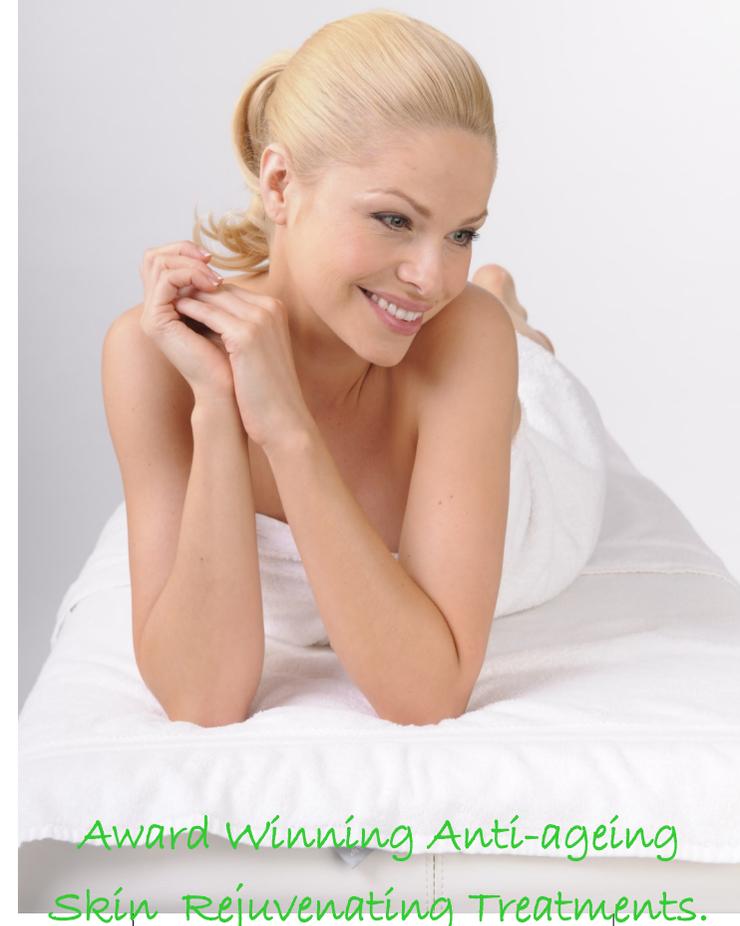

The major benefit with CACI once you have completed a CACI course of treatments, you will never need another course unless you leave a period of up to 6 months without a monthly CACI maintenance.

Award winning, anti-ageing skin rejuvenating treatments.

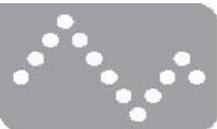

CACI

(Computer Aided Cosmatology Intrucment)
Was devised by Dr. Thomas Wing, of the United States to treat victims of Bells Palsy, strokes and for soft tissue. It is also widely used in hospital burns units. CACI soon gained huge popularity taking Britain and America by storm and was soon described in the media as a non-surgical face-lift.

A course of 10 is always recommended treatments can be made as a bespoke package to meet your skins needs.
